Story*

GFCCELL™ EXO VITAL

The memory of healthy skin,
experience a return of beauty.

LYOPHILIZED ASC CONDITIONED MEDIA
& PLANT EXOSOMES

GFCCELL™

No bad skin from the beginning!

There is no bad skin since birth.
There is only a difference of change depending on the environment, lifestyle, and
level of care that you've been exposed to,
we are all born with healthy skin.

But our skin becomes thinner and weaker overall
then it makes less elastic, dries,
and wrinkles according to natural aging progress.

So, we found the answer for young and healthy skin
through Human Adipose stem cell conditioned media and
plant-derived exosome that retain healthy genetic
information.

GFCCELL™ EXO COMPLEX

GFCCELL™ EXO | Key Ingredient ① – Human Adipose Stem Cell Conditioned Media

Contains around 250 growth factors
(Promotes cell division or growth and differentiation)

- Ⓞ HGF Hepatocellular Growth Factor : Efficacy of cell activity induction and surgical wound treatment
- Ⓞ VEGF Vascular Endothelial cell Growth Factor : Cell proliferation and angiogenesis promotion
- Ⓞ α-EGF Epithelial cell Growth Factor : Promotes epithelial cell proliferation and promotes the production of collagen, hyaluronic acid and SOD in fibroblasts
- Ⓞ β-FGF Fibroblast Growth Factor : Skin dermal regeneration factor which is effective in wound treatment
- Ⓞ EGF Epidermal cell Growth Factor : Promotes cell turnover by expressing epidermal cell growth signals
- Ⓞ KGF Keratinocyte Growth Factor : Promoting the growth of keratinocytes
- Ⓞ IGF-1 Insulin-like Growth Factor : Contains Exosome of regeneration and tissue growth promotion
- Ⓞ Exosome only exist 0.1% ratio in stem cell conditioned media
- Ⓞ Exosome is nano vesicles of 50~200nm size, containing various genetic information substance in cells

GFCCELL™ EXO | Key Ingredient ① – Human Adipose Stem Cell Conditioned Media

01 Acquiring adipose tissue and securing adipose stem cell (signing a joint research agreement with Lee Young Clinic)

02 Confirmation of donor eligibility

GFCCELL™ EXO | Key Ingredient ② – Camellia stem cell derived Exosome

Camellia japonica, the winner of winter

- Ⓞ The excellent anti-oxidant effect of "polyphenol" prevents skin aging by removing free radicals that promote aging
- Ⓞ It is rich in "oleic acid" to prevent skin loss and moisturize and soothe skin
- Ⓞ Tanin helps with skin diseases such as atopy and acne by removing inflammation
- Ⓞ Catechin helps skin to become more active by converging and calming the tired skin
- Ⓞ Rich vitamin C prevents melanin pigmentation, improving spots and freckles
- Ⓞ High purity exosome isolated and purified directly from camellia callus

Plant-derived Exosome

- Ⓞ Physiological function of plant-derived Exosome in apoplast which is a free space formed between cell membranes and cell walls in plant and serve as a movement of nutrient and moisture

Physiological function of plant-derived Exosome

- Ⓞ Plant Exosome has various functions such as cell proliferation, inflammation control, anti-cancer, anti-oxidant, immune control, tissue regeneration and intestinal symbiotic control
- Ⓞ In particular, it has the advantage of being able to act as a drug carrier without side-effects, and various studies are currently being conducted

GFCCELL™ EXO VITAL 9403 POWDER

"Freeze dried solution containing high-concentrated GFCCELL™ EXO complex 97%"

GFCCELL™ EXO VITAL 9403 POWDER

[1st agent | Freeze dried human adipose stem cell conditioned media]

180mg x 5vials

Human Adipose Stem Cell Conditioned Media

94%

+

Camellia callus Exosome

3%

→

GFCCELL™ EXO Complex

97%

- Human Adipose Stem Cell Conditioned Media
: **Strong skin improvement effect by containing around 250 growth factors**
 - Camellia callus Exosome : Skin anti-inflammatory effect by inhibiting nitric oxide
 - Take care of young and healthy skin with concentrated nutrition to skin that begins to age
- [Ingredients] Human Adipose Stromal Cell Conditioned Media(94%), Camellia Japonica Callus Extracellular Vesicles(3%), Mannitol

GFCCELL™ EXO VITAL Pep8 SOLUTION

GFCCELL™ EXO VITAL Pep8 SOLUTION

[2ND agent | Liquid solution]

4ml x 5vials

PEPTIDE SOLUTION

Anti-Wrinkle

+ Acetyl Hexapeptide-8
+ Palmitoyl Tetrapeptide-7
+ Palmitoyl Tripeptide-1
+ Palmitoyl Pentapeptide-4

Whitening

+ Nonapeptide-1

Skin-regenerating

+ Copper Tripeptide-1
+ Hexapeptide-9
+ Tripeptide-1

- Combination of 8 kinds of peptides for anti-aging, anti-wrinkle and whitening effects
- Care of firm elasticity with synergy of Exosome and peptide to the skin that start to age
- Anti-oxidant effect UP by containing various skin active ingredients such as Adenosine, Collagen and Panthenol

[Ingredients] Water, Butylene Glycol, Glycerin, Copper Tripeptide-1, Tripeptide-1, Acetyl Hexapeptide-8, Hexapeptide-9, Palmitoyl Pentapeptide-4, Palmitoyl Tetrapeptide-7, Palmitoyl Tripeptide-1, Nonapeptide-1, Sodium Hyaluronate, Niacinamide, Adenosine, Collagen, Panthenol, Tranexamic Acid, Glutathione, Glucose, Sodium PCA, Sodium lactate, Arginine, Aspartic Acid, PCA, Glycine, Alanine, Serine, Valine, Proline, Threonine, Isoleucine, Histidine, Phenylalanine, Caprylyl Glycol, 1,2-Hexanediol

GFCCELL™ EXO VITAL KIT

Capacity and configuration : (180mg + 4ml) * 5 sets
= 1box

[1st agent] 180mg + [2nd agent] 4ml = 1set (a dose of medicine)
total 5 doses configuration

Active ingredients : 970,000 ppm

How to use

- Mix the 2nd agent liquid solution in the 1st freeze dried powder
- After completely dissolving the 1st agent freeze dried powder, leave it still for up to 3~5 minutes to remove air bubbles before using it
- Use mixture dissolved freeze dried powder within a maximum of 3 hours to ensure the stability of product

Subject of advice

- GFCCELL™ EXO VITAL is recommended to be used at least 3 times, on average 5 times
- GFCCELL™ EXO VITAL 1 set which is a mixture of 1st agent and 2nd agent is used once per person
- To maintain the efficacy of content, it is recommended to store it in refrigerator condition below 5°C

Recommend this type of skin!

- Skin with weakened self-sustainability
- Skin that is troubled by uneven skin condition such as pores and facial-redness
- Skin trouble by acne scars
- Thin and sensitive skin due to congenital, environmental reason or reason of frequent procedures
- Skin that is beginning to show signs of aging

For injections, once every two to three weeks is recommended. !

GFCCELL™ EXO SCALP

Skin aging, starting from the scalp!

Where do wrinkles start?

From the top of your head, which is the top part of your body due to gravity,
Skin aging begins and connects downward to create wrinkles.

When the scalp on the frontal lobe ages, the wrinkles on the forehead,
When the occipital lobe is aged, wrinkles form on the back of the neck.

So, when your scalp gets old, so does your face.
It's covered with hair, but the scalp is also skin.

Therefore, there are many types of scalp like face skin.

Dryness, oily skin, skin trouble, and sensitivity.

Each person suffers from different concerns and symptoms,
It overlooks the importance of the scalp, so it cannot find a fundamental solution.

So, we isolated the exosomes from lactobacillus found in the
young and healthy scalp,
and found the fundamental answer to scalp health.

Contains LEUCO-EXO 970,000ppm
derived from Leuconostoc,
scalp derived lactic acid bacteria.

97% of exosomes derived from proprietary new microorganisms
(Leuconostoc GFC1203H) isolated from the scalp of 10s and 20s.

[Exosome isolation technology Patent No. 10-2215237]

Exosomes derived from lactic acid
bacteria in the scalp
LEUCO-EXO

97%

GFCCELL™ EXO SCALP 9700 POWDER

"Freeze dried solution containing high-concentration/purity of LEUCO-EXO 97%"

GFCCELL™ EXO SCALP 9700 POWDER

[1st agent | Freeze dried Exosome powder]

180mg x 5vials

- LEUCO-EXO : Exosome derived from new proprietary lactic acid bacteria isolated from healthy scalp of 10s~20s(Leuconostoc GFC1203H)
- Improve to healthy scalp through cluster change of scalp resident flora
- Hair growth effect through hair papilla cell proliferation and suppression of scalp inflammation through activation of anti-inflammation

[Ingredients] Leuconostoc/Radish Root Ferment(97%), Mannitol

GFCCELL™ EXO SCALP Pep9 SOLUTION

"Peptide activating solution that Exosome powder and active ingredients combine to maximize absorption and efficacy"

GFCCELL™ EXO SCALP Pep9 SOLUTION

[2nd agent | Liquid solution]

4ml x 5vials

Anti-Wrinkle

+ Acetyl Hexapeptide-8
+ Palmitoyl Tetrapeptide-7
+ Palmitoyl Tripeptide-1
+ Palmitoyl Pentapeptide-4

Anti-Hair loss

+ Nonapeptide-1
+ Alanine/Histidine/Lysine Polypeptide Copper HCL

Skin-regenerating

+ Copper Tripeptide-1
+ Hexapeptide-9
+ Tripeptide-1

- Combination of 9 kinds of Peptides for anti-aging, anti-wrinkle, anti-hair loss and hair papilla cell proliferation
- Care of rich hair and healthy scalp with synergy of Exosome and Peptides to the scalp
- Anti-oxidant effect UP by containing various skin active ingredients such as sodium hyaluronate, caffeine and panthenol

[Ingredients] Water, Butylene Glycol, Glycerin, Copper Tripeptide-1, Tripeptide-1, Acetyl Hexapeptide-8, Hexapeptide-9, Palmitoyl Pentapeptide-4, Palmitoyl Tetrapeptide-7, Palmitoyl Tripeptide-1, Nonapeptide-1, Alanine/Histidine/Lysine Polypeptide Copper HCL, Sodium Hyaluronate, Caffeine, Panthenol, Tranexamic Acid, Glutathione, Glucose, Sodium PCA, Sodium lactate, Arginine, Aspartic Acid, PCA, Glycine, Alanine, Serine, Valine, Proline, Threonine, Isoleucine, Histidine, Phenylalanine, Pentylene glycol, Polyglyceryl-10 laurate, Caprylyl Glycol, 1,2-Hexanediol
