

Bubble Foam Cleanser	STEP 01	Apply bubble foam cleanser and gently rub it over the face as if massaging it to relax the facial muscles.
Bubble Foam Cleanser	STEP 02	Wipe the cleanser with sponge, and cover the face with warm towel.
Bubble Foam Cleanser	STEP 03	After 3-5mins, remove the towel and cleanse the remains on the face.
Brightening Peeling Gel	STEP 04	Apply peeling gel (exfoliator) over the face and spread it evenly.
Brightening Peeling Gel	STEP 05	After 1-2mins, remove dead skin by gently massaging the face and remove it with the sponge.
Brightening Peeling Gel	STEP 06	Once again, cover the face with warm towel and gently massage the face to cleanse the remains.
Gold PDRN Ampoule	STEP 07	After opening the ampoule cap, stick the enclosed syringe to the opening and pull out the ampoule.
Gold PDRN Ampoule	STEP 08	Apply the ampoule over the face and spread it evenly.
Micro Needling	STEP 09	Using derma pen, rub the needles just like drawing small circles. At the edge of jaw line, it is better to forward inside from the outside.
Micro Needling		* Recommended needle length for cheek & jaw: 0.5mm / for eye rim & philtrum & nose : 0.3mm
Cooling Collagen Gel Mask	STEP 10	Consisted of pure collagen powder & cooling gel in the package. Cools down the skin after irritated and moisturizes at the same time.
Cooling Collagen Gel Mask	STEP 11	Mix the collagen powder with cooling gel and spread it evenly over the face. Not only cools down the skin after irritated, but also helps the ampoules to be absorbed well into the skin.
Cooling Collagen Gel Mask	STEP 12	After 10-15mins, wipe the cooling gel with sponge and cover the face with cool towel. Gently massage the face to cleanse the remains.
Toner & Gold PDRN	STEP 13	Apply toner to tighten the skin texture, and apply the ampoule over the face for the last time.

- PLEASE NOTE :** **PRECAUTION AFTER MEDIFACIAL**
- 1) Skin can be reddish, itching or swell for 1-2 days after treatment.
 - 2) Avoid skin to be heated such as Sauna, Spa or activities, hiking.
 - 3) It is okay to wear makeup, but never forget to apply sun block.
 - 4) Apply repair cream every morning and night, for 3-4 days after treatment.
 - 5) There will be dead skin within 2-3 days after treatment. This is very natural, and using repair cream will help reducing these dead skin. As dead skin shows up, skin will start drying so applying moisturizer will help.
 - 6) Do not remove dead skin by force.
- MEDIFACIAL CYCLE**
- 1) On the first month, at least three sessions are recommended. (with 7~10 days distance between each session)
* You can see skin tone improvement by these 3~4 times of sessions. (can be different from each person)
 - 2) From the second month, it is recommended to have treatment at least once a month to keep the improved tone
* For sensitive skin, once a month treatment is recommended. / For normal skin, twice a month treatment is ideal.
