

# MESOTEN

aqualight

- Reduce wrinkles
- Balanced hydration
- Intensely moisturizing effect
- Exfoliates and soothes the skin

**Mesoten Aqualight** - an innovative anti-aging product with a firming and intensely moisturizing effect.

Contains SR-(Oligopeptide-91 Clostridium Botulinum Polypeptide-1), which provides a pronounced lifting effect. Succinic acid gently exfoliates and soothes the skin, improving its texture and complexion. Active ingredients help reduce wrinkles, maintain elasticity and balanced hydration, making the skin smooth and radiant.

#### Key Ingredients:

Hyaluronic acid 1%

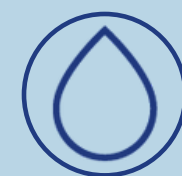

Succinic acid 1.6%

SR-(Oligopeptide-91 Clostridium Botulinum Polypeptide-1)

---

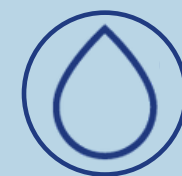

## INGREDIENTS DESCRIPTION

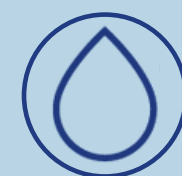

### **Hyaluronic acid 1%**

Deeply hydrates and maintains the skin's moisture balance.

### **Succinic acid 1.6%**

Soothes and renews the skin, gently exfoliating dead skin cells.

### **SR-(Oligopeptide-91 Clostridium Botulinum Polypeptide-1)**

This recombinant peptide combines the properties of oligopeptide-91 and SR-Clostridium botulinum, forming a powerful complex of 468 amino acids. This peptide provides an anti-aging, firming and moisturizing effect. In combination with hyaluronic and succinic acids, it improves skin texture, smoothes wrinkles and maintains a healthy moisture balance.

# PRODUCT BENEFITS

01

Infused with hyaluronic acid, the formula delivers deep and lasting hydration, restoring skin elasticity and leaving it looking plump, smooth, and refreshed.

02

The powerful botulinum peptide enhances lifting and firming, visibly reducing the appearance of fine lines and wrinkles for a more youthful, contoured look.

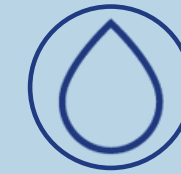

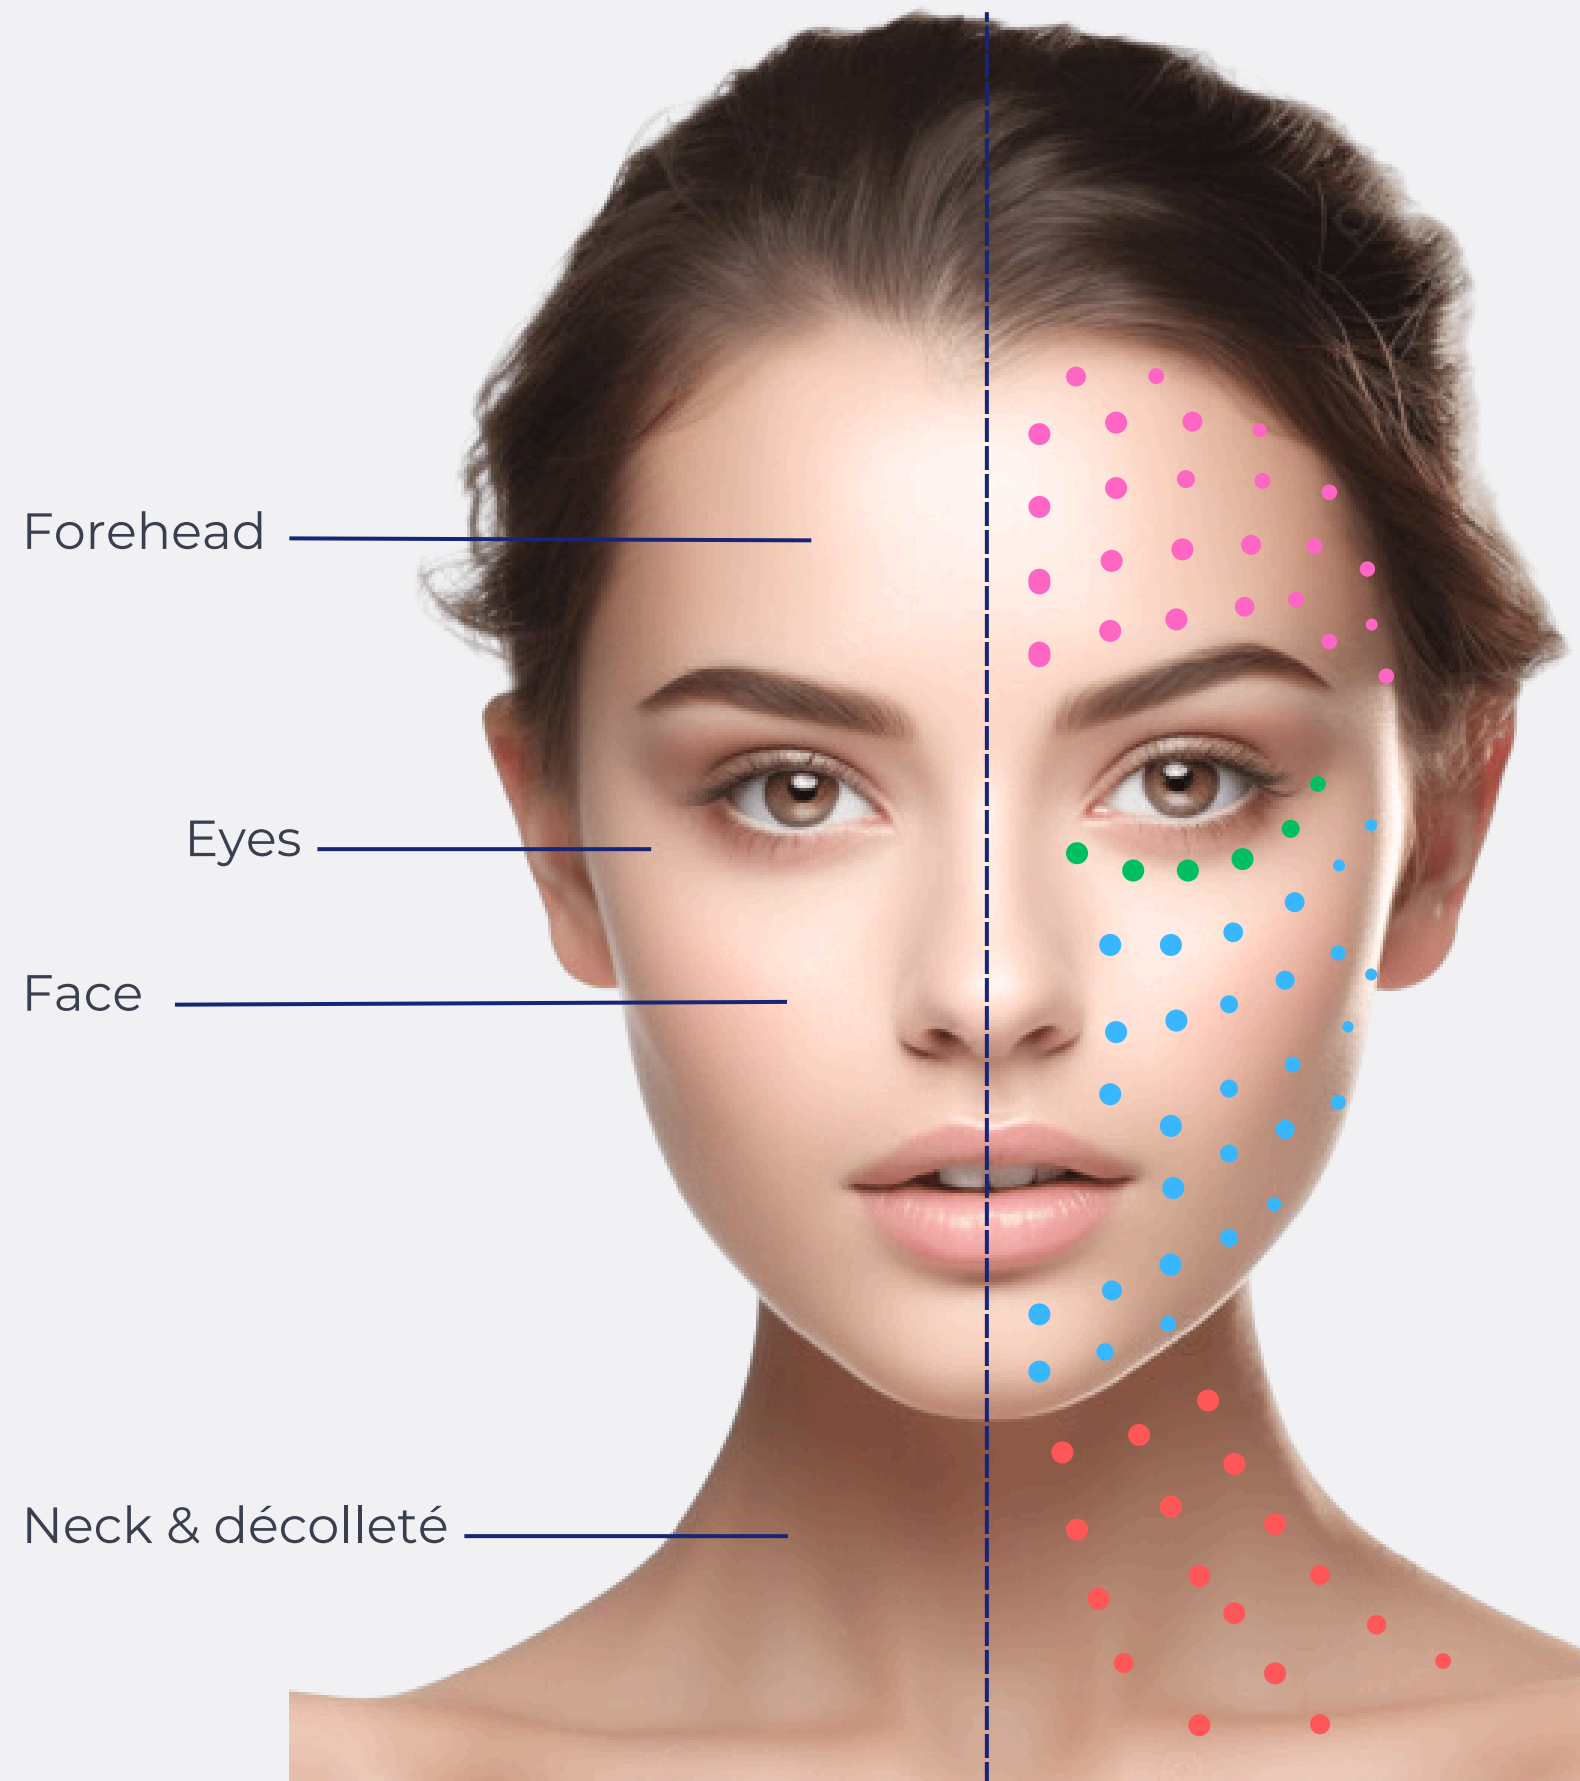

03

With the gentle exfoliating action of succinic acid, the skin is renewed and refined - roughness fades, texture becomes more even, and a healthy glow is revealed.

04

Soothing actives work to calm and rebalance the skin, helping to reduce redness, ease irritation, and restore long-lasting comfort - even for the most sensitive complexions.

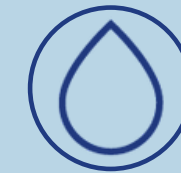

# APPLICATION PROTOCOL

## Face

Needle: 32G

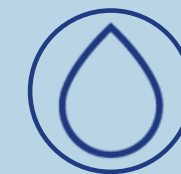

Superficial papular technique

## Eyes

Needle: 32G

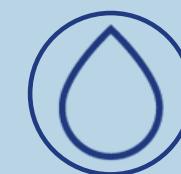

Micropapular technique

## Neck & Décolleté

Needle: 32G

Superficial papular technique

## Hands

Needle: 32G

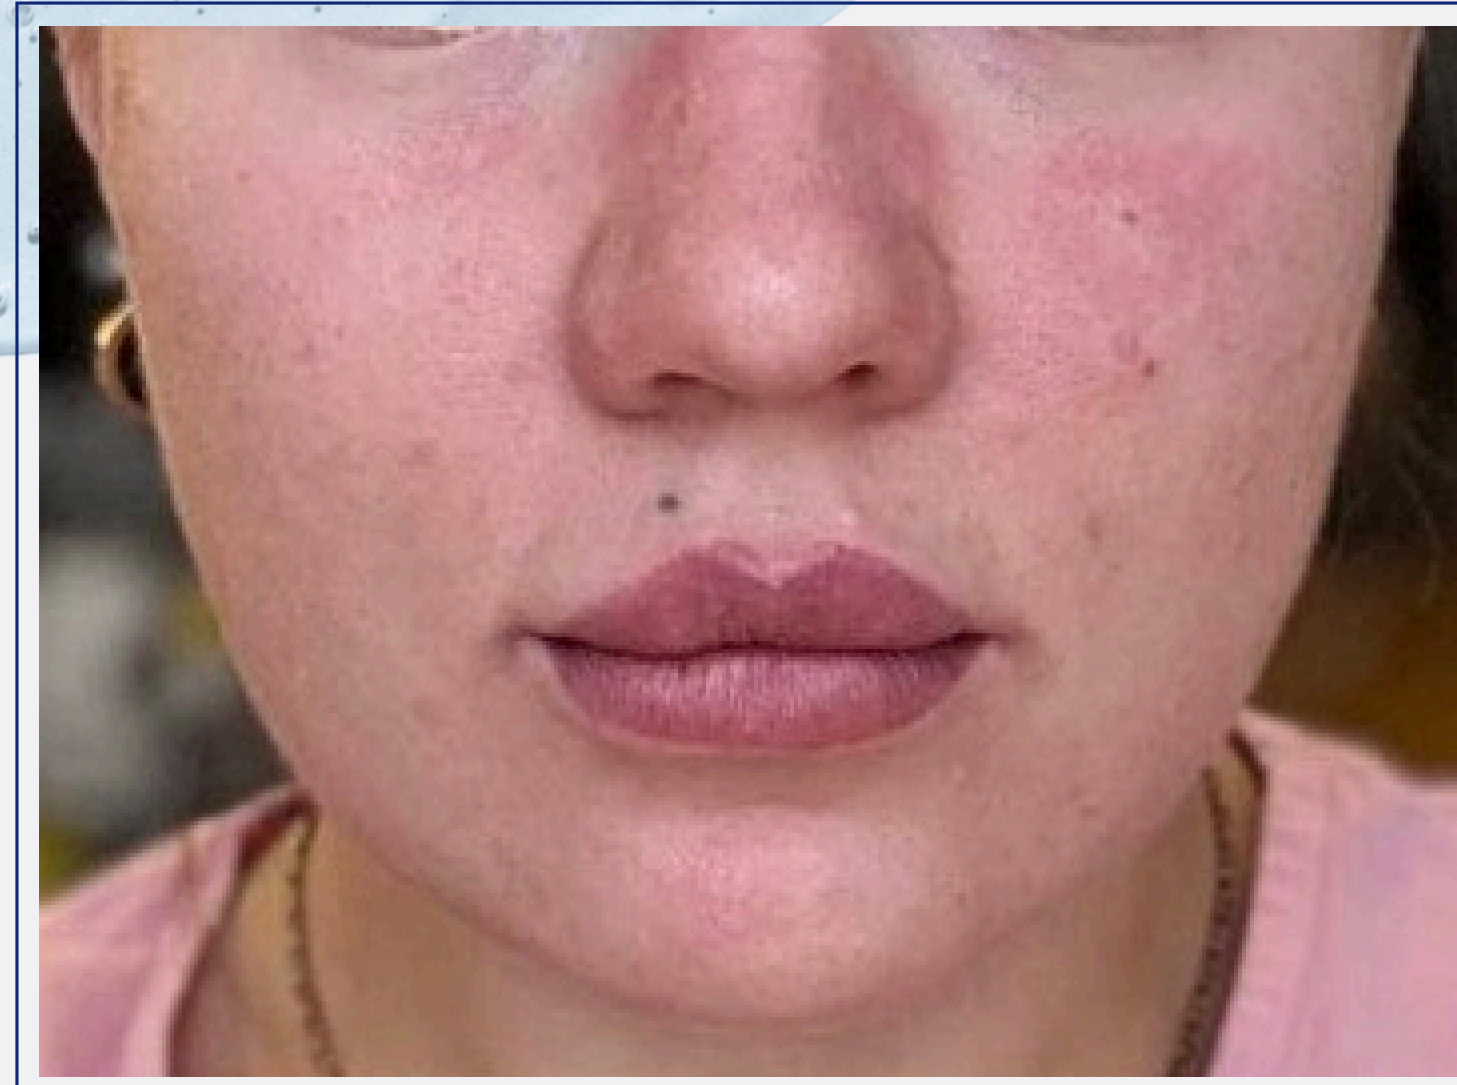

Superficial papular technique

## Recommended

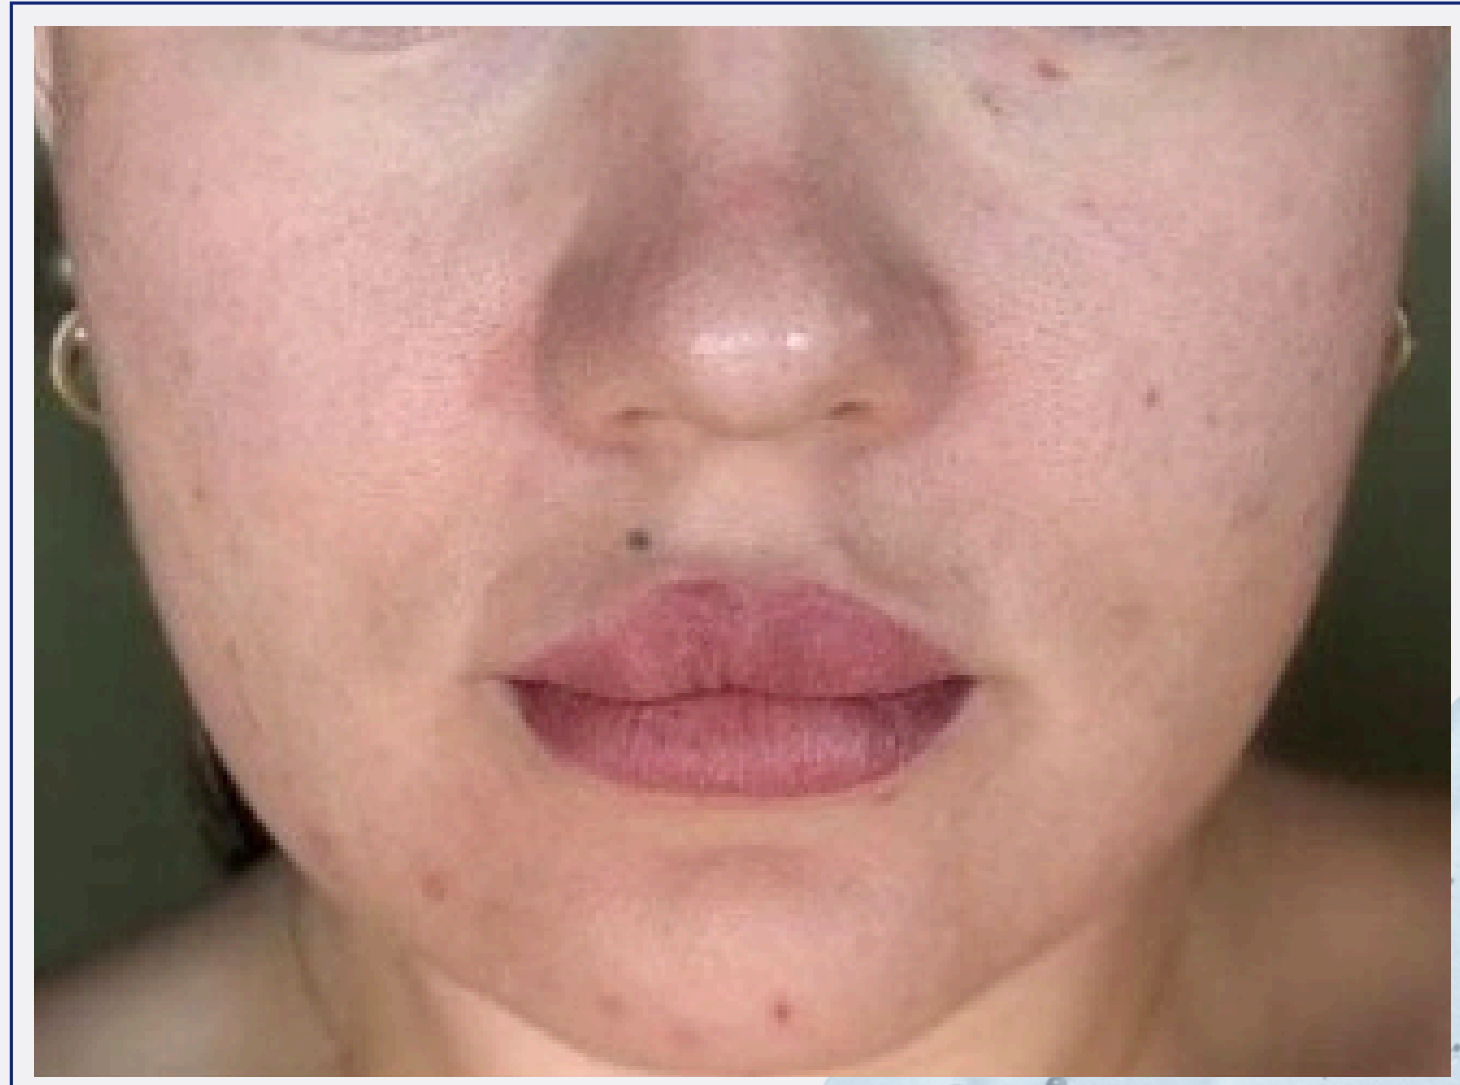

4 procedures at 14-day intervals

(extendable per specialist's recommendation)
